## Criteria for Support

**2020-2022**

**“Enhancing your archery experience”**

The Queensland Government provides funding to Archery Queensland to get more Queenslanders active in sport and recreation.

## **Introduction**

Archery Queensland has been provided with a small amount of funding from the Queensland Government to facilitate expansion of our sport within Queensland.

The Board's objectives are to:

- Increase awareness of target archery
- Increase opportunities for youths, women and other targeted groups to try target archery
- Build competitive target archery participation rates
- Increase governance practices within club structures

The following tables provide ways that Clubs and RGBs may benefit through undertaking activities towards the achievement of these objectives.

If you are in any doubt about the eligibility of your program to receive funding or if you have suggestions for the inclusion of other activities within the Support Criteria, please contact one of your Archery Queensland Board members (contact details are on the Archery Queensland website).

NOTE: This document is a guide to support possibilities and is not exhaustive. AQ has minimal funding and applicants for funding should not assume their application will be paid in full, although AQ will judge each application on its merits and against available funds and will endeavour to provide some assistance to all legitimate applicants. Funding is not designed to support private enterprise - rather it is to provide assistance to RGBs and Clubs to increase archery participation levels in Queensland. Any payments based on the criteria will only be made to Queensland RGBs or Clubs.
